

THE ALLERGEN CHART

Notes regarding the Food Product and Allergy Chart

- An "X" indicates that the food product contains that particular allergen in the ingredient statement from the manufacturer.
- An "X √" indicates that the allergen is not present in the ingredient statement from the manufacturer, but the manufacturer has indicated that the allergen is present in the facility or on the production line where this food product is produced.
- Entrees listed on the chart do not include any side items.
- Buns are listed separately from the entrée unless noted.
- Many of the products served contain "soy" as indicated on the chart. In many cases, the soy present is in the form of soybean oil or soy flour.
- A majority of the products that contain "nitrates or nitrites" contain a B vitamin in the form of thiamin mononitrite or thiamin mononitrate.
- Product Substitutions May Be Necessary. This should only be used as a guide.
